

RDC - February 19, 2015

The Beech Grove RDC meeting was held at City Hall on Thursday, February 19, 2015 at 7:00pm. Those present included President Donald Webb, Vice President Ron Mote, Secretary Cathy Chappell, and members Mac Bellner and Tammy Storey.

First on the agenda was paying various bills, mostly those for legal fees.

The RDC approved spending up to \$25,000.00 with Crossroads Engineering on reviving the Greenway Project. The goal is to have the proposal ready by May 2015.

Mr. Frank Nierzwicki talked about some of the findings of the report he made and what the city and the RDC can do to move the community forward. RDC members expressed a desire to have another meeting, public invited, like the workshop held last August.

The RDC approved paying the first part of the Churchman Avenue Grant. The purpose is to redesign and install sidewalks from Churchman to Arlington Avenue. Ultimately, it will remove large semis from using Churchman Avenue. It will make for a safer environment for those attending and working at Beech Grove High School.

The meeting was adjourned.

Respectfully submitted,

Cathy Chappell, Secretary
