

Greenscape Commission Meeting Minutes  
Monday, May 19, 2014  
Hornet Park Community Center

Tim Latimer called the meeting to order at 5:00pm.

Members present: Beth Berg, Sister Sheila Fitzpatrick, Tim Latimer, Dave Miller and Brenda Wilson.

Tim has begun inspecting trees that were determined to be hazardous or potentially hazardous by Davey Resources. He has found that a number of those trees have already been removed. Beth will take part of the list and help with the inspections.

Tim and Dave have both inspected trees on private properties at the request of homeowners for Emerald Ash Borer. The ash trees they have looked at appear to be suffering and indeed dying, but they think they are being affected by a disease and not EAB. Tree trimmers need to be careful not to automatically conclude that these trees are infested with EAB (as one trimmer already stated).

Tim also shared a new warning has been issued by the IUFC about a disease affecting walnut trees.

Sister Sheila gave an update on work at the site of the new Peace and Nature Garden.

The meeting adjourned at 6:00pm.

Respectfully submitted,

Beth Berg  
Secretary, Beech Grove Greenscape Commission
