To: Mayor Buckley and the Board of Works

Ref: Security Door and ADA Entrance Doors

Dear Mayor and Board of Works, the police department needs to be more secure than it is to protect the employees and any citizen that might be inside. The front entrance should be more ADA accessible than what it is at this time. I have received quotes for a bullet resistant door installed and the needed hardware for the front entrance doors installed.

Central Indiana Hardware quoted \$6,376.62 for the resistant door and \$8,752.63 for the ADA doors [2] for a total price of \$15,129.25.

Central Indiana Security Corp. quoted \$11,778.00 for both.
