From the desk of the Mayor

Quite a while back, I sent out a letter advising the residents on North 16th Avenue that Citizens Energy Group would be replacing the water main in late 2020 or in fiscal year 2021, and then City of Beech Grove would repave the road.

I have been advised by Citizens Energy Group that the water main on North 16th Avenue between Buffalo and Detroit will not be replaced until the spring of 2022 at the earliest. This pushes back our plans to repave the road as well.

On another note work has begun on the new Crossroad Engineering building located on the old hospital property. This 2.5 million dollar investment will continue to increase property values in this area of our city.

Work will soon begin on a 55 and old senior community (Bailey Park) located at 17th and Southern. Five doubles will be constructed along with a street and sidewalks. The contractor has submitted the proper paperwork for permits, so very soon they will begin. This is another good investment for this area of our city.

Respectfully Submitted,

Dennis B. Buckley
Mayor
City of Beech Grove
