

Today the new sewer bills came out. They itemize your Wastewater (Sewer) fee, Trash Pick-up fee and soon to be Storm Water Fee. We think you will find this new billing statement easier to understand and read. At the top center of the bill under Summary of Service, you can view the date and amount that your last payment was recorded. This is new to the billing and it is a welcome addition. It will give you, the customer, the ability to track and insure that your payments are being recorded properly. If there is a discrepancy, in your records verses ours, please call us. We are anxious to hear your opinions of the new bills, so please let us hear from you. Our goal with this change is to save money and provide better service to our customers.

Thank you,

Dan McMillan, Clerk Treasurer
City of Beech Grove
