

Beech Grove Senior Citizens 2015 Annual Report

2015 Has been a great year for us here at the senior center.

We were so fortunate to get a new car and a new bus, both of which were desperately needed and greatly appreciated.

We provided transportation 1,657 times over the year so, you can tell we make good use of the vehicles that the city provides us.

We continue to receive sponsorship from many of the local senior communities which helps us tremendously when it comes to being able to provide so many activities for our seniors at little to no cost.

My continuing ambition is to keep our members active and informed so that they may remain independent as long as possible.

The Senior Citizen program that we provide means so much to so many!

It could be for some, the only thing they have to look forward to.

Many, many friendships are formed thru the senior center and even a few love stories.

I believe that the more active we keep our members, the happier they are.

Too many of our older generation are either over looked, ignored or deemed no longer useful and I, as one feel that is a terrible shame!

As the Director of Senior Services, I feel privileged to offer such wonderful services to the older generation.

We get new members monthly so that tells us that there is a real need for our services .

We are looking forward to another great year at the Beech Grove Senior Center!

Respectfully submitted:

Carla McKee

Director of Senior Services
