From the desk of the Mayor

At the July 20th Board of Public Works and Safety meeting the Board approved an agreement with United Consulting to conduct an “Asset Pavement Management Plan.

The purpose of this plan is to inspect every road in the City of Beech Grove, then create a database which will score each road determining the factor on what roads will get paved over the next two years.

Roads will be rated 1-3, 4-6, and 7-10, of which 1-3 is the worst. This plan is required every two years by INDOT to become eligible for road funding through the Community Crossing Grant Program. Through this grant program, we have received approximately \$1.5 million dollars in road funding since 2016.

Once the plan is finished, we will place it on our web site for public viewing. It is very important to note that should your road be given a grade of 3 or higher, your road will not be repaved in 2021 or 2022.

Respectfully and Stay Safe,

Dennis B. Buckley
Mayor
City of Beech Grove
