Re: Community Crossings Matching Grant Application  
2017 Roadway Rehabilitation and Related Items  
City of Beech Grove

The City of Beech Grove is pleased to submit an application requesting Community Crossings Matching Grant (CCMG) funding for our 2017 Roadway Rehabilitation and Related Items project. The project will improve local roadways using a combination of milling/resurfacing, full-depth HMA patching and full-depth HMA reconstruction as needed. Improvements are also planned for adjacent sidewalks and curb ramps to improve ADA compliance. Six separate locations have been identified throughout the city and construction is planned for late-2017, pending the award of this grant.

Since January 1, 2017, the City has also completed roadway improvements of a similar nature at an additional six locations using 100% local funds that we believe are eligible for 50% reimbursement as part of this application. These roadway improvements were built as part of the same construction contract used to administer portions of the 2016 CCMG funding the City was fortunate enough to receive. All grant requirements were met for the design and construction of these roadways.

The total project budget, not including professional engineering services for the six previously constructed locations, is **\$925,552.00**. The total amount for Construction is **\$793,552.00**. The City is requesting 50% of this amount, or **\$396,776.00**, in funding. The City hereby commits to funding the remaining **\$400,000.00** of the project cost, not including the matching **\$128,776.00** for construction of the previously completed projects which has already been obligated. The enclosed Project Preliminary Estimate provides a breakdown of overall project funding as well as the anticipated individual location costs. In addition, the City is committed to providing up to an additional **\$50,000.00**, either as a contingency or to make additional roadway improvements under this contract.

The entire project can be ready for bid as early as September 2017, but due to possible constraints on the construction schedule and pending notice of the award of this grant, we are also considering bidding the project later in the Fall or Winter and beginning construction the following Spring. We anticipate construction taking between 60 and 90 days to complete.

We trust that this request and all supporting documentation will allow INDOT to determine the City's eligibility for the available funds. If you have any questions regarding this application, please contact Brian Pierson at United Consulting at phone number (317) 895-2585. Thank you for providing the City with an opportunity to participate in this selection process.

Respectfully Submitted,

Dan McMillan  
Clerk - Treasurer  
City of Beech Grove
