

Greenscape Commission Meeting  
Tuesday, January 20, 6:00pm  
Hornet Park Community Center, Room A

Members present: Dave Miller, Tim Latimer, Brian Clayton and Beth Berg. Guest: Brad Meriwether

Dave Miller reported there was one request from a resident for a tree inspection, which he investigated.

There was a lengthy discussion on the categories that should be included for the tree inventory database. Initial suggestions include:

GPS Coordinates  
Street Address  
Species  
Common Name  
Size (Diameter)  
Health/Condition (Poor/Fair/Good)  
Root Exposure  
Infrastructure Damage  
Clean City Zone

We will also want to make note of voids – spaces where street trees could be planted in the future, and trees that should be removed.

Brad Meriwether will contact the Schneider Corporation, the company operating the city's GIS website for guidance on setting up the database.

We are still waiting for an official start date for the project from the state.

The next meeting of the commission will be Tuesday, February 17, 6:00pm at the Hornet Park Community Center.

Respectfully submitted,

Beth Berg  
Greenscape Commission Secretary
