

Greenscape Commission Meeting Minutes  
August 16, 2010, 6:00pm  
Hornet Park Community Center, Room D

- Members Present- Dave Miller, Lynn Huff, Tim Latimer
- All members voted by email or in person to the proposed changes to the mission statement. The mission statement was approved. Lynn Huff has placed the mission statement and logos on letterhead.
- Dave Miller asked members to look at our web page for needed updates. That is, please check for old photos and old links that need to be removed.
- There are many grants out there that we could use to get our tree planting and maintenance needs met. Please look over the DNR links as well as Indiana Urban Forestry links for grant opportunities.
- Our recertification is due in December. We will work on this at our October and November meetings.
- Keith Holdsworth will attend our next meeting. Keith Holdsworth is a member of the Indianapolis-Marion County Tree Board and is going to give us a presentation on proposed amendments to zoning ordinances to establish a minimum level of tree canopy coverage for new development. He is also a principal planner for comprehensive planning with the Indianapolis Department of Metropolitan Development Planning Division.
- Lynn Huff will review a software program that will be very useful in helping manage our tree inventory.

Respectfully submitted by  
Tim Latimer, Greenscape Commission Member
