

DEPARTMENT OF NATURAL RESOURCES
Division of Water
Indianapolis, Indiana

- Docket - 0- 156R5
- Applicant - City-County Council of the City of Indianapolis and of Marion County, IN
- Area Covered - Marion County, Indiana and Incorporated Areas
- Title - CITY-COUNTY GENERAL ORDINANCE NO. 11, 2016
Proposal No. 154, 2016
MDC DOCKET NO. 2016-AO-001
- Situation - The City of Beach Grove, the City of Indianapolis, the City of Lawrence, the City of Southport, and the Town of Speedway are currently participating in the Regular Phase of the National Flood Insurance Program (NFIP). Adoption of this ordinance will allow the Cities and Town to maintain compliance with the minimum standards of the NFIP.
- Ordinance - Ordinance establishes three flood districts within Marion County (All Jurisdictions) identified as floodplain, floodway and fringe. All local permit applications located in the floodway or floodplain, where the limits of the floodway and fringe have not yet been determined, are to be forwarded to the Department of Natural Resources for appropriate review and/or approval. Local permit applications located in the fringe do not require a review from the Department of Natural Resources due to the fact that the building official can establish a lowest floor elevation. All language referring to permitted uses, non-conforming uses and variances is in compliance with Indiana's minimum standards for floodplain management as found in 312 IAC 10. The Marion County, Indiana (All Jurisdictions) Flood Insurance Rate Map and corresponding Flood Insurance Study, dated April 19, 2016 as well as any future updates, amendments, or revisions, prepared by the Federal Emergency Management Agency with the most recent date, are adopted by reference to be part of the ordinance.
- Conclusion - Ordinance is not less restrictive than 312 IAC 10 and is recommended for approval.
