

Beech Grove Senior Citizens May 2020 Board of Works Report

In May we transported Transportation Log attached

We started off May with an email explaining that someone in our community nominated the center for a grant that was coming up very quickly. We filled out all the information needed such as what we do for our Seniors in our community and how many have come to partake in the different programs we have for the Seniors citizens. Shortly after we submitted the application, we were contacted with the good news that we would be receiving a grant for 5,000.00 This is the first nomination on record since the mid 80`s when the center was remodeled. This nomination was indeed a joyful and humbling experience.

We continued our month with a donation from Bethany Village of adult coloring books and colored pencils for all our Seniors. What a great way to check on the elderly by bringing a gift and a much-needed conversation with friends. We also continued to pass meals out to the high-risk Seniors in our area. We have received and given 2,250.00 meals in May alone. I must say this task we took on during this COVID-19 pandemic has helped ensure our Seniors not catch this dangerous virus.

We are planning to open our doors on July 1st. We are hard at work moving tables and other furniture around in order to have the safest day room to welcome our Seniors back. We have also been making signs in order to help those who enter our building know how to stay safe during their time at the Center. We also keep watch on the C.D.C website to know the latest recommendation on keeping all in mind well. We`ve been busy as bees setting things up and continuing to keep our people updated.

Respectfully submitted:
Stephanie Bramlett
Director of Senior Citizens
