All Vacuum Truck Sweeping will be completed with a Regenerative Air Street Sweeper with a high-efficiency multipass, cylindrical, centrifugal dust separator to clean the air before it passes to the blower coupled with a controlled jet of air directed through a blast orifice to dislodge debris from the paved surface while also using various water nozzles to provide dust suppression while in operation. The concentrated high velocity air is blasted into cracks and crevices removing fine dust particulates as well as larger debris such as leaves, trash, dirt & rocks. Our equipment passes the strict South Coast Air Quality Management District (AQMD) Rule 1186 standard for excellent dust and PM10 control.

TERRAPRO

FEBRUARY 8, 2017

Brad Meriwether
City of Beech Grove
806 Main Street
Beech Grove, IN 46107

Dear Brad,

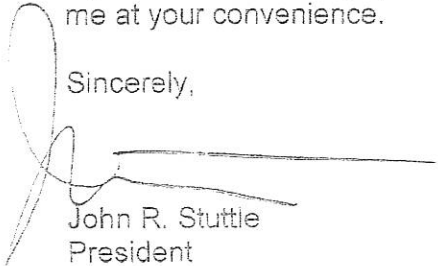

Thank you for allowing TerraPro, LLC the opportunity to submit a proposal for the street sweeping to be performed in Beech Grove.

The cost for sweeping the streets would be \$7,457 per sweeping cycle for a total annual cost of \$44,742. This price includes debris disposal.

Open hourly rate for on call sweeping would be \$125 per hour port to port with no minimum.

If you should have any questions regarding this proposal and, please feel free to contact me at your convenience.

Sincerely,

John R. Stuttle
President
